

ENHANCE CLARITY

Some people revel in the obscure grammar rules of 8th grade writing class, but general principles suffice for most of us. Your ultimate goal is clear writing which improves reader comprehension. Structure your sentences, use punctuation and choose words that enhance clarity. Sentence fragments, sentence sprawl, omitted commas and apostrophe errors are all common mistakes we make. This website from The Writing Center at the University of Wisconsin, Madison provides a *reminder of some of the most common, and important, grammar rules to follow.*
